NOMAD

★★★★ BJELAŠNICA

Dragi gosti,

Bjelašnica pripada dinarskom planinskom sistemu, a visoka je 2067 metara. Hotel Nomad nalazi se na 1460 metara nadmorske visine. Susjedne planine su joj Igman sa sjeverne strane, koji se praktično naslanja na Bjelašnicu, i Treskavica i Visočica.

U sklopu XIV Zimskih olimpijskih igara koje su se održane u Sarajevu 1984. godine, na Bjelašnici je održano takmičenje u spustu, slalomu i veleslalomu u muškoj konkurenciji.

Vožnja električnim biciklima

Ako volite adrenalin i uživanje u nevjerovatnim prizorima od kojih zastaje dah, ovo je prava aktivnost za vas. Izaberite turu koja vam najbolje odgovara: kratka (dužina: 10-15 km, trajanje: 60 min), osnovna (dužina: do 30 km, trajanje: 180 min), napredna (dužina: do 50 km, trajanje: 300 min).

Preporučujemo da posjetite najstarije **nomadsko selo u Bosni - Lukomir**.

Lukomir je poput živog etnološkog muzeja u kojem se i danas praktikuju običaji nomadskih plemena i dinarskih gorštaka. To je važan dio historijskog, kulturnog i arhitektonskog naslijeđa BiH i pruža jedinstvenu "atmosferu naslijeđa". Takođe, stećci rasuti po selu ukazuju da je ono bilo naseljeno već u 14. i 15. vijeku.

Riding an Electric Bike

If you are an adrenalin enthusiast and keen on seeing some breath-taking views, then this is the right activity for you.

Select a trail that suits you best: short (distance: 10-15 km, duration: 60 min), basic (distance: up to 30 km, duration: 180 min), or advanced (distance: up to 50 km, duration: 300 min).

We would like to recommend to visit the oldest **nomad village in Bosnia - Lukomir**.

Lukomir is like a living ethnological museum, where the customs of nomadic tribes and Dinaric highlanders are still practiced. It's an important part of BiH's historical, cultural and architectural legacy and provides a unique "heritage atmosphere". Also, the stećci scattered around the village indicate that it was already inhabited by the 14th and 15th centuries.

Gradska tura Sarajevo

Da li ste zainteresovani da istovremeno upoznate historiju, kulturu i gastronomiju Sarajeva? Ukoliko jeste, onda je ovo prava tura za vas! Uživat ćete u ljepoti Vijećnice - svjetskog simbola susreta civilizacija i najreprezentativnije građevine podignute tokom austrougarske vladavine Bosnom i Hercegovinom, čuti nevjerovatnu priču o Inat kući, prošetati uskim, krivudavim ulicama u kojima ćete naići na zanatsku tradiciju iz 15. stoljeća.

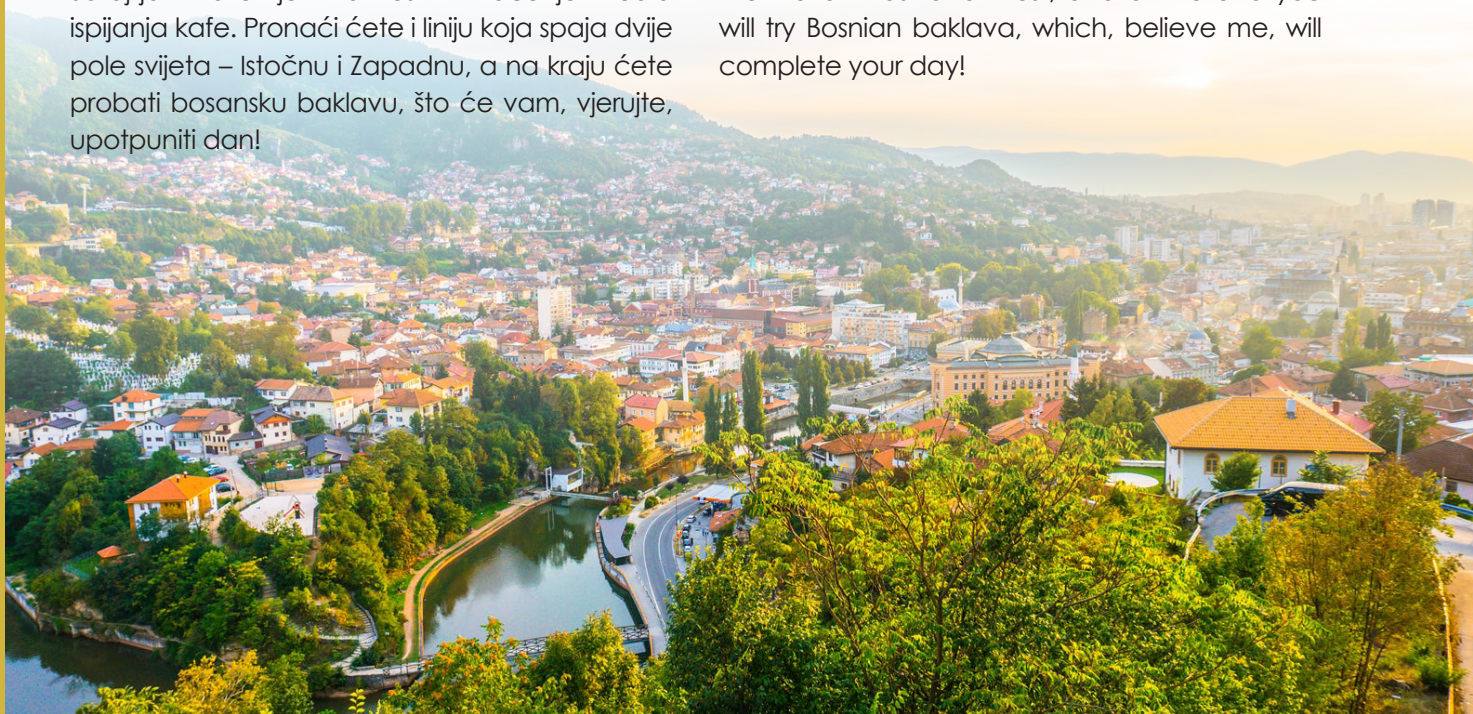

Otkrit ćete i Baščaršiju – staru sarajevsku čaršiju izgrađenu u osmansko doba, napiti se vode sa Sebilja - česme koja je jedan od simbola Sarajeva i saznati koja je to razlika između bureka i ostalih pita.

Da li ste znali da u Sarajevu možete obaviti molitvu u četiri različite Božije kuće, koje se nalaze u prečniku od nekoliko stotina metara, zbog čega Sarajevo neki zovu i evropskim Jerusalemom?

Uz fildžan bosanske kafe osjetit ćete gostoprimstvo Sarajlija i razumjeti važnost i značenje rituala ispijanja kafe. Pronaći ćete i liniju koja spaja dvije pole svijeta – Istočnu i Zapadnu, a na kraju ćete probati bosansku baklavu, što će vam, vjerujte, upotpuniti dan!

Sarajevo City Tour

You will enjoy the beauty of the Town Hall - a world symbol of the meeting of civilizations and the most representative building built during the Austro-Hungarian rule in Bosnia and Herzegovina, hear the incredible story of the Inat house, walk through narrow, winding streets where you will come across craft traditions from the 15th century. You will also discover Baščaršija - the old Sarajevo bazaar built in the Ottoman era, drink water from Sebilje - a fountain that is one of the symbols of Sarajevo, and find out what is the difference between burek and other pies. Did you know that in Sarajevo you can pray in four different houses of God, which are located in a diameter of several hundred meters, which is why some call Sarajevo the European Jerusalem? With a cup of Bosnian coffee, you will feel the hospitality of Sarajevo and understand the importance and meaning of the ritual of drinking coffee. You will also find a line that connects the two poles of the world - East and West, and at the end you will try Bosnian baklava, which, believe me, will complete your day!

Titov bunker u Konjicu

Građen u periodu od 1953-1979. godine unutar brda u podnožju planine Zlatar, Titov bunker ili Atomska ratna komanda najveće je atomsko sklonište i jedan od najvećih podzemnih objekata ikada izgrađenih u bivšoj Jugoslaviji. Više od deset godina nakon izgradnje bio je najstrožije čuvana vojna tajna u zemlji. Svi građevinski radnici pažljivo su odabrani i provjereni, potpisali su ugovor o šutnji i prolazili su najvišu sigurnosnu provjeru. Nakon 26 godina i potrošenih 4,6 milijardi američkih dolara, gradnja objekta završena je 1979. godine.

Tito's Bunker in Konjic

Built between 1953 and 1979 into the hills at the foot of the Zlatar Mountain, Tito's Bunker or the Atomic War Command is the largest nuclear shelter and one of the largest underground structures ever built in the former Yugoslavia. For more than ten years after its completion, it was the most secret military installation in the country. All construction workers were carefully selected and vetted, signed a non-disclosure agreement, and all staff members underwent the highest security checks. After 26 years and 4.6 billion US dollars spent, the construction of the facility was completed in 1979.

Posjeta Bosanskim piramidama

Neposredno ispod Doline piramida u Bosni i Hercegovini nalazi se prahistorijski podzemni labirint Ravne s prolazima u dužini od 1,7 km. Pođite na vođenu turu kroz labirint i prođite kroz osvjetljene tunele kako biste otkrili njihove ljekovite moći. Vjeruje se da visoka koncentracija jona čisti vaše tijelo. Možete i da provedete dodatno vrijeme u „sobi za liječenje“ unutar tunela i pored megakeramičkog bloka K-2. To je posebno energetski potentno mjesto idealno za meditaciju i liječenje.

Bosnian Pyramids

Directly below the Valley of the Pyramids in Bosnia and Herzegovina is the prehistoric underground labyrinth Ravne with passages stretching across 1.7 km. Take a guided tour through the labyrinth and walk through the illuminated tunnels to discover their healing powers. The high ion concentration is believed to detoxify the body. You can also spend some extra time in the “healing room” inside the tunnel and next to the K-2 mega ceramic block. It is a particularly energetically potent place ideal for meditation and healing.

NATURE
IN
GOOD
COMPANY

Mi brinemo o prirodi i za svakog gosta ćemo posaditi jednu sadnicu kako bismo sačuvali ljepotu i obogatili šumski fond Bjelašnice.

We care about nature so we'll plant a tree for each of our guests in order to preserve the beauty of Bjelašnica and expand its forested area.
